

The best of both hygiene & efficiency

# Vikan cleaning trolleys

Compact  
Slim

# Unique products for unique challenges

## Keep moving hygienically, efficiently & ergonomically

Vikan has created a range of easy to use cleaning trolleys. They have been constructed to deliver hygienically give both efficiency and ergonomics when using Vikan ultra microfibre in your cleaning process.

## Select the right cleaning trolley

Our range of cleaning trolleys cover all needs for professional cleaning where hygiene and efficiency are essential. You can select from a range of flexible and functional models that have been designed to be adaptable depending on the requirements of the cleaning environment.

## Compact Original 60

**What:** A compact cleaning trolley especially designed for use with pre-prepared microfibre mopping systems.

**Where:** For use in Care homes, Sports halls & Offices where floor and inventory cleaning is a priority.

**Why:** The Vikan Compact Original cleaning trolley has a standard cleaning capacity of 500 m<sup>2</sup> while still being under 55 cm in width.

## Compact Plus 40

**What:** An Ergonomically designed cleaning trolley for use with prepared microfibre mopping systems.

**Where:** For use in Hospitals, Schools & Municipal buildings where both floor cleaning & waste collection are essential.

**Why:** This cleaning trolleys innovative design includes its own unique easy to use microfibre mop preparation system.

## Compact Plus 60

**What:** A flexible cleaning trolley that is designed to be suitable for all sizes of pre-prepared microfibre mops.

**Where:** For use in buildings with varying cleaning area sizes from long hallways, to standard rooms where a number of different mop sizes are necessary.

**Why:** Its unique compact but flexible design means that the user can both prepare and use 25, 40 or 60 cm microfibre mops.

## Large

**What:** A cleaning trolley with extensive capacity in all aspects of cleaning, especially pre-prepared microfibre mops.

**Where:** For use in areas where cleaning trolley requirements are not just cleaning but also the daily replacement of consumables like paper & soap and a need to sort waste.

**Why:** This trolley combines over 1000 m<sup>2</sup> floor cleaning capacity together with the ability to sort waste into 4 different sections.

## Slim-Liner

**What:** The smallest cleaning trolley (under 40 cm in width) with an in built pre-prepared microfibre mopping system.

**Where:** For busy places where space is at a premium but hygiene is essential such as restaurants, supermarkets and other small units.

**Why:** The Slimliner trolley has an innovative telescopic function which means its cleaning capacity 6 storage space can be instantly doubled or halved.

## Wall Bracket

**What:** Wall bracket for organizing & storing all of your microfibre cleaning needs both before and when in use.

**Where:** For food production areas such as large kitchens and deli counters where hygienically storing all microfibre mops & cloths is essential.

**Why:** This wall mounted holder functions as a neat & hygienic cleaning centre so items are in one place which in turn helps cleaning efficiency.
